5. WORK PLAN AND SCIENTIFIC SUPERVISION OF THE SCHOLARSHIPS

6. EVALUATION CRITERIA AND BONUSES

6.1 Evaluation Criteria

The evaluation will be based on the merits of the candidate/s considering their academic path, scientific activity, professional experience and knowledge of English

All admitted applications will be ranked according to the weighted average of the score obtained on a 0-100 scale in each of the following evaluation criteria:

Criterion A – Academic Path, with a weight of 50%; takes into account the final mark/grade of the licentiate and/or master degrees, the institution where they were obtained, and their alignment with the areas of Spatial Planning and/or Transport Systems.

Criterion B – Scientific activity and professional experience, with a weight of 25 %; takes into account the candidate's involvement in scientific activities (e.g., participation in research projects, publication of journal articles and presentations at conferences) and his/her professional experience in the areas of Spatial Planning, Transport Systems and/or related areas.

Criterion C – Interview, with a weight of 25 %; takes into account specific aspects of the scientific activity and professional experience of the candidate, as well as their knowledge of written and spoken English.

In order to decide the granting of a PhD scholarship, applicants will be ranked according to the weighted average of the score obtained in each of the three criteria, according to the following formula:

$$\text{Final classification} = (0,50 \times A) + (0,25 \times B) + (0,25 \times C)$$

For tiebreaking purposes, the final ranking list will be based on the scores assigned to each of the evaluation criteria in the following order: criterion C; criterion A; criterion B.

Important note for candidates holding a degree issued by foreign higher education institutions:

In the case of academic degrees awarded by foreign higher education institutions, and to guarantee the principle of equal treatment among applicants with national and foreign academic degrees, the applicants must submit proof of recognition of such degrees and the conversion of the respective final average grade to the Portuguese grading scale under the terms of the applicable legislation.

Applicants with recognized foreign academic degrees who do not submit a proof of conversion of the final average grade to the Portuguese grading scale will be evaluated with the minimum grade of zero points in criterion A.

In any case, scholarship contracts with applicants whose diplomas have been issued by foreign institutions will only be concluded upon presentation of proof of recognition of academic degrees and conversion of the final average grade, as indicated above.

Applicants whose application is scored with a final grade lower than 50 points are not eligible for scholarship award.
